

Dear La Belle Équipe hiring team,

I am applying for the Chef de Projet Événementiel position because its focus on taking projects from brief through on-site delivery closely matches my four years of experience coordinating cultural programmes, touring installations and public events.

At Atelier Horizon, I produced six temporary exhibitions from initial brief to opening, bringing together artists, venues, suppliers, accessibility partners and installation teams. I managed schedules, supplier consultations and budgets up to EUR 180,000, supported by decision logs and weekly risk reviews, and prepared the operational documentation and post-event reports needed for reliable handovers.

The Night of Archives programme further reflects the people-centred live coordination I would bring to La Belle Équipe: I delivered the event for 1,200 visitors with 18 contributors, timed access, mediation teams and partner communications. This experience taught me to align contributors around visitor flow and delivery priorities while maintaining a consistent public experience.

Specialised workforce administration is an adjacent development area for me, and my experience with scheduling, contract documentation and cross-team operational handovers would provide a strong basis for supporting staff planning and HR administration.

I would welcome the opportunity to apply this combination of logistical control, stakeholder coordination and attention to visitor experience within your operational team, contributing to well-run events and thoughtful support for the people delivering them.

Kind regards,
Maya Laurent
