

Sofia Martin

Regulatory Affairs Specialist | Medical Devices | Lyon

sofia.martin@example.test | +33 4 00 00 00 00 | example.test/sofia

Profile

Regulatory affairs specialist with three years of medical-device compliance experience, preparing EU MDR technical documentation for Class II devices and supporting submission readiness. Coordinates traceable evidence and notified-body responses across quality, clinical and engineering teams, with experience spanning post-market surveillance, vigilance, risk management and clinical evaluation.

Experience

MedNova Devices - Regulatory Affairs Associate 2023 - 2026

- Prepared and maintained EU MDR technical documentation for Class II medical devices, including change-impact assessments and submission-readiness reviews.
- Coordinated traceable regulatory-submission evidence across quality, clinical and engineering teams and tracked notified-body questions through closure.
- Supported post-market surveillance, vigilance reporting and updates to risk-management and clinical-evaluation documentation.

BioCert Laboratories - Quality Assurance Intern 2022 - 2023

- Reviewed controlled documents, training records and CAPA evidence against ISO 13485 procedures before internal audits.
- Consolidated audit findings, owners and due dates into traceable follow-up packs for quality-management reviews.

Skills

Regulatory Affairs: EU MDR, technical documentation, regulatory submissions & notified bodies, change-impact assessment, Class II medical devices

Quality Systems: ISO 13485, CAPA, document control, internal audits

Clinical & Safety: clinical evaluation, post-market surveillance & vigilance, risk management

Professional Methods: technical writing in English, regulatory traceability, cross-functional coordination, gap analysis

Education

University of Lyon - MSc Biomedical Engineering and Regulatory Affairs 2021 - 2023
